To whom it may concern:

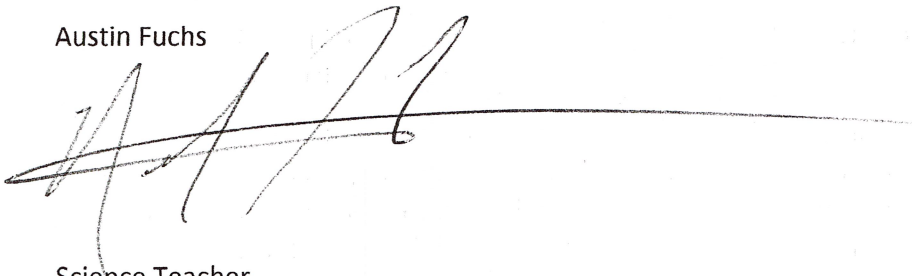

Over the past school-year, I have had the pleasure of teaching Anastasia Ignashkina in Environmental Science at Cypress Lake High School. She is the epitome of an ideal student—in many ways, she displays traits that are not found in typical teenagers. She is both studious and dedicated. Her grades reflect these qualities, as she has compiled a 4.08 grade point average. Anastasia is quick to learn and comprehend some of the most complex scientific ideas.

In addition to being a conscientious and hard-working student, Anastasia is bilingual in both Russian and English. Despite her diligent and attentive studies, she has managed to find time to excel in many other facets. As a two-time World Champion synchronized swimmer, Anastasia is an excellent team member and can easily fit into any group and learn how to draw upon the strengths of those around her.

Despite the fact that we are sad to see Anastasia move on from Cypress Lake High School, I am proud to have been her teacher and I am confident that she will continue to excel in the highest levels of academics and into her adult life. She will make a great addition to any organization that will accept her among their ranks.

Thank You,

Austin Fuchs
