

Prof. Sergio Medina Peralta
Department of Mathematics & Statistics
Florida International University
11101 S.W. 13 ST
Miami, FL
June 16, 2021

To whom it may concern,

My name is Sergio Medina Peralta, and it is a great pleasure for me to recommend Anastasia Ignashkina for your position.

I have a Ph.D. in the area of Engineering Mathematics and currently I am Assistant Professor at Florida International University.

Anastasia was my student in Calculus II, Summer 2020 as part of her major. She was an outstanding student and even though she faced some medical issues she was able to finish the class with an "A".

In the Calculus II class Anastasia was always participating and showing a huge curiosity for the different applications of the mathematical ideas in other fields of sciences, hence she has the necessary interest to become a good researcher.

It is worth mentioning that she was a professional athlete in her natal country, Russia and she got a Champion Degree in Synchronized swimming, therefore she has been learning since a very young age the value of hard work and sacrifice when she wants to obtain an important result.

Anastasia is a very dedicated student, and she always shows a great desire for knowledge. I am sure that she will be an asset for our institution, and your company will provide her with the knowledge and the opportunities to succeed in her life.

If you have further questions, I can be contacted at smedinap@fiu.edu.

Sincerely,
Sergio Medina Peralta, Ph.D.
