

To whom it may concern,

I have had the distinct pleasure of having Anastasia Ignashkina as a lab worker at Herzen University. She is one of the most exceptional students I have encountered in my 20 years of teaching experience. Anastasia is more than the ideal employee. In order to achieve the highest results and my deepest respect, this young, gifted lady demonstrated outstanding leadership and maintained a clear sense of purpose. The regulations at Herzen University are challenging, and many people, whom I had the pleasure to supervise in past, could not manage to pass all the tasks. However, Anastasia fulfilled all the requirements with the added challenge of honors and advanced tasks. Ms. Ignashkina is an outstanding person who has a keen interest in and talent for science and math. Her advanced skills and passion for the subject make her an ideal fit for your rigorous position.

Anastasia has demonstrated excellence in all that she puts her mind to, whether it's designing an experiment, collaborating with others, or teaching herself another language. Anastasia's endless curiosity, combined with her willingness to take risks, leads me to believe there will be no limit to her growth and achievements wherever she goes. Please don't hesitate to contact me at veb69@rambler.ru if you have any questions.

Sincerely,

Volodyaeva Elena, MD

Herzen University
